CHA Health Partnerships

For Health Professionals and Organizations

Launched in 2016, the CHA Health Partnership application is now available online. Any health-related organization requesting to meet with residents in a common area of a CHA building must first complete a partnership application for CHA review/approval. Approved Health Partners provide free health and wellness information and resources to CHA residents. This is a voluntary partnership agreement with no funds provided by CHA.

- To become a CHA Health Partner, partners should fill out the application below and return to CHA.
- For more information on CHA's Health Partnership Application Protocol click below.
- For a complete list of CHA health Partners/services click below.
