BUSINESS DEVELOPMENT

WHAT'S HAPPENING?

We are proud to announce that one of our own, Felicia Kimber of Stalwart Market, LLC, a long-time resident of the 10th Ward, has received the City of Chicago Department of Business Affairs and Consumer Protection (BACP) Community Growers Program grant to help combat food deserts and inequities in disadvantaged communities. With a project budget of approximately \$128,000, Felicia plans to build a community garden featuring an orchard, berry patch, raised beds, beehives, and a tool shed. Her goals include promoting community engagement, encouraging healthy living, and enhancing the local environment. Let's give Felicia a big round of applause to thank her for her courage and dedication to our community. Felicia has received support and services from the WORC team who wholeheartedly supports her efforts. If you are interested in learning more about the Business Academy, please contact the WORC office at worc@thecha.org for more information.
